

Layout of CU-TEP Testing on COVID-19 Pandemic at Conference Hall, PSUICC

Car Park

Testing Door

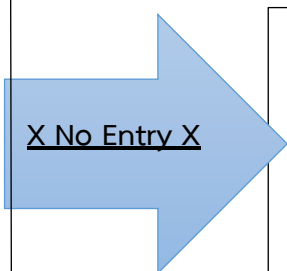

Inspection prior to the test room
Test takers must **open the facial mask to verify** with facial photo in evidence and wash hands with alcohol gel.

2nd Check Point: Inspection of evidence's test takers at the lobby of Conference Hall

- Test takers get in ordered lines to be checked the evidence being identical with the signed paper (Hand in & hand out through the plastic scene).
- Test takers would sign first name and last name in English.
- Test takers wash hands with alcohol gel and get in line to the test room immediately with spacing.

Remark: If evidence is incorrect, test taker will not be allowed to take the test.

Applicants check own information and guidelines at partitions.

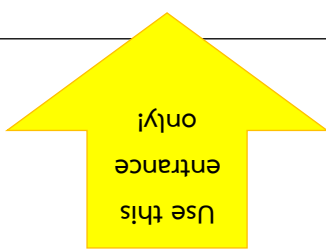

1st Check Point: Body Temperature Measurement at entrance of Conference Hall

- Test takers having normal body temperature will be put the sticker on the shirt area and wash hands with alcohol gel

Remark: If it is found that the body temperature is higher than 37.5 degrees Celsius, test taker will not be allowed to take the test.
